

# Planetary Science Conference 2025

## Thursday 23 October 2025

### Small bodies in the Solar System - A-1-06 (15:05 - 16:20)

time	[id] title	presenter
15:05	[14] Estimation of metallic resources of ordinary chondrite parent asteroids	ŁUSZCZEK, Katarzyna
15:20	[28] Can the analysis of Mössbauer spectra of ordinary chondrites provide new insights into the evolution of the Solar System?	JAKUBOWSKA, Martyna GRABIAS, Agnieszka GAŁĄZKA-FRIEDMAN, Jolanta
15:35	[49] Elastic planetoids	ŻBIK, Bartosz
15:50	[16] Charcoal in proximal ejecta blankets of very small impact craters: What happens when an asteroid hits a tree.	LOSIAK, Anna
16:05	[30] Measurements of Earth's magnetic field anomalies caused by meteorite impacts	ZAWADZKI, Mikołaj
